

The International Association For Creation

"Sound Doctrine. Dependable Science."

The International Association For Creation is the leading professional association dedicated to advancing the collaborative efforts of creation science ministries and providing resources in local communities that help Christians grow in their understanding of the Biblical Worldview. Our team is comprised of some of the community's top professionals. While we provide corporate services and business support, the heart of our team is to glorify Christ and bless those who serve Him. A majority of our service in the community is based on providing logistical support for those on the "frontlines" by providing key resources to museums and ministries within our membership. Based on decades of experience, we believe that unity throughout the creation science community is vital as we seek the Lord in the days ahead and continue to present the Biblical Worldview around the globe.

Corporate Mission

To work with biblical creation museums and ministries around the world to credibly present the historical authenticity of Genesis, affirm the faith of Christians, and present the salvation message to the lost. As we endeavor to unify creation museums and ministries, we seek to provide them with strategic guidance for tactically presenting biblical creation evidence and debunking evolution.

Corporate Vision

To proclaim Christ through His Creation around the globe.
