

FOR IMMEDIATE RELEASE: 11/20/2017

Supporting The Historic Christian Faith At Museum of the Bible

Missionaries Work Together To Share Biblical Worldview At World-Class Museum

Orlando, Fla. (11/20/2017): Today, The International Association for Creation announces a Strategic Response Plan that will assist guests at Museum of the Bible (Washington, D.C.) in getting the most out of their experience by providing in-depth information about Jesus Christ and His Word (starting in Genesis) throughout exhibits in the new landmark museum.

In accordance with the latest Strategic Response Plan from The International Association for Creation, the IAC Missions Board will be sending out certified Biblical Creation Ministry Professionals and MOVE Missionaries to Museum of the Bible under the My Origins Verified Everywhere (MOVE) Program to help guests better understand the Biblical worldview through a network of qualified professionals, free of charge.

Currently, certified Biblical Creation Ministry Professionals and MOVE Missionaries are made available to the public at secular aquariums, museums, national parks, and zoos across America to assist individuals, families, and groups who are interested in learning from the Biblical worldview.

A representative from The International Association for Creation stated, "We look forward to working with Museum of the Bible executives in implementing this latest Strategic Response Plan, giving Christian communities from across America, and abroad, who come to visit our capital's newest, world-class educational institution more choices. Our team understands the importance of serving those who hold to the historic Christian faith, and we eagerly anticipate Museum of the Bible's coordination with us, to ensure a large percentage of Christian believers from across the globe are supported in their longstanding faith traditions, which they revere to be of the utmost importance."

The International Association for Creation, in partnership with millions across the United States of America and around the world, is helping individuals and families to experience God's creation first-hand and to know Him through His Word. Help share Jesus and His Word in America's museums, [join the movement today!](#)

About The International Association for Creation: The International Association for Creation is the leading professional organization dedicated to providing you and your family with local Biblical worldview resources through museums and ministries around the world. We invite you to experience God's creation across our global network of Biblical worldview learning centers, outdoor creation adventures, Christian retail outlets, broadcast media, and interactive events.
